

See key diagram

Venting process when actuating full throttle shutoff

- 1 Intake manifold
- 31 Exhaust manifold
- 36 Therموvalve 40 °C/104 °F
- 60 Exhaust gas recirculation valve (EGR)
- 61 Corrugated tubing
- 62 Orifice
- 63 Orifice
- 64a Switchover valve, idle speed shutoff – EGR
- 64b Switchover valve, full throttle shutoff – EGR
- 65 Vacuum control valve
- 3 Vacuum control unit

- 66 Injection pump
- 67 Vacuum pump
- 68 Guide lever with cam
- 69 Valve plate
- 71 Central plug
- 72 Damper, vacuum
- a Vent to passenger compartment
- b Automatic transmission
- c Brake unit

- bk = black
- br = brown
- gr = green
- pu = purple
- re = red
- wh = white
