

**Lamp in center console**

Problem	Possible cause/consequence	Suggested solution
 <span data-bbox="502 1833 523 1995">PASSENGER AIR BAG OFF</span>	<p>The front passenger front air bag off indicator lamp illuminates and remains illuminated with the weight of a typical adult or someone larger than a small individual on the front passenger seat.</p>	<ul style="list-style-type: none"> <li>► The system is malfunctioning.</li> <li>► Have the system checked as soon as possible by an authorized Mercedes-Benz Center.</li> <li>► Also note any messages in the multifunction display and follow corrective steps (▷ page 333).</li> </ul>

**Warning!**

If the  PASS. AIR BAG OFF indicator lamp illuminates and remains illuminated with the weight of a typical adult or someone larger than a small individual on the front passenger seat, do not have any passenger use the front passenger seat until the system has been repaired.
