

					Wire Color Code
1	Headlight unit, left				ws = white
	a High beam				gn = green
	b Low beam				br = brown
	c Turn signal light				ge = yellow
	d Standing/parking light				gr = grey
	e Fog light				rs = pink
2	Headlight unit, right				b1 = blue
	a High beam				rt = red
	b Low beam				sw = black
	c Turn signal light				el = ivory
	d Standing/parking light				nf = neutral
	e Fog light				vi = purple
3	Relay for carburetor heater, rear				
4	Brake fluid indicator light switch				
5	Parking brake indicator light switch				
6	Instrument cluster				
	a Turn signal indicator light, left				
	b Turn signal indicator light, right				
	c Fuel reserve warning light				
	d Fuel gauge				
	e Coolant temperature gauge				
	f Electric clock				
	g Instrument lights				
	h Rheostat, instrument lights				
	i Charge indicator light				
	k High beam indicator light				
7	Brake fluid and parking brake indicator light				
	l Temperature sensor, coolant				
8	Dual-tone horns (fanfares)				
9	4-way warning flasher switch/timer				
10	Signal system contact				
11	Wiper motor with interval timer				
12	Washer pump				
13	Ashtray illumination				
14	Cigar lighter				
15	Glove compartment light switch				
16	Glove compartment light				
17	Temperature switch 65 °C				
18	Solenoid valve, automatic transmission				
19	Kick-down switch				
20	Starter-lockout and back-up light switch				
21	Heater coil, automatic choke, front				
22	Fuse box				
23	Combination switch				
	a Turn signal light switch				
	b Passing light switch				
	c Dimmer switch				
	d Wiper switch				
	e Switch for wiping speed				
	I Slow wiping				
	II Fast wiping				
	III Interval wiping				
24	Brake light switch				
25	Blower switch				
26	Pre-resistance, blower motor				
27	Pre-resistance				
28	Ignition coil				
29	Ignition starter switch				
30	Rotary light switch				
31	Heater coil, automatic choke, rear				
32	Door contact switch, front, left				
33	Front dome light w/switch				
34	Door contact switch, front, right				
35	Rear dome light switch				
36	Rear dome light				
37	Battery				
38	Starter				
39	Voltage regulator				
40	Alternator				
41	Radio				
42	Fuel gauge sensor				
43	Blower motor				
44	Plug connection, cable to rear components				
45	Spark plugs				
46	Distributor				
47	Trunk light				
48	Tail light unit, left				
	a Turn signal light				
	b Tail/parking light				
	c Back-up light				
	d Brake light				
49	License plate lights				
50	Tail light unit, right				
	a Turn signal light				
	b Tail/parking light				
	c Back-up light				
	d Brake light				

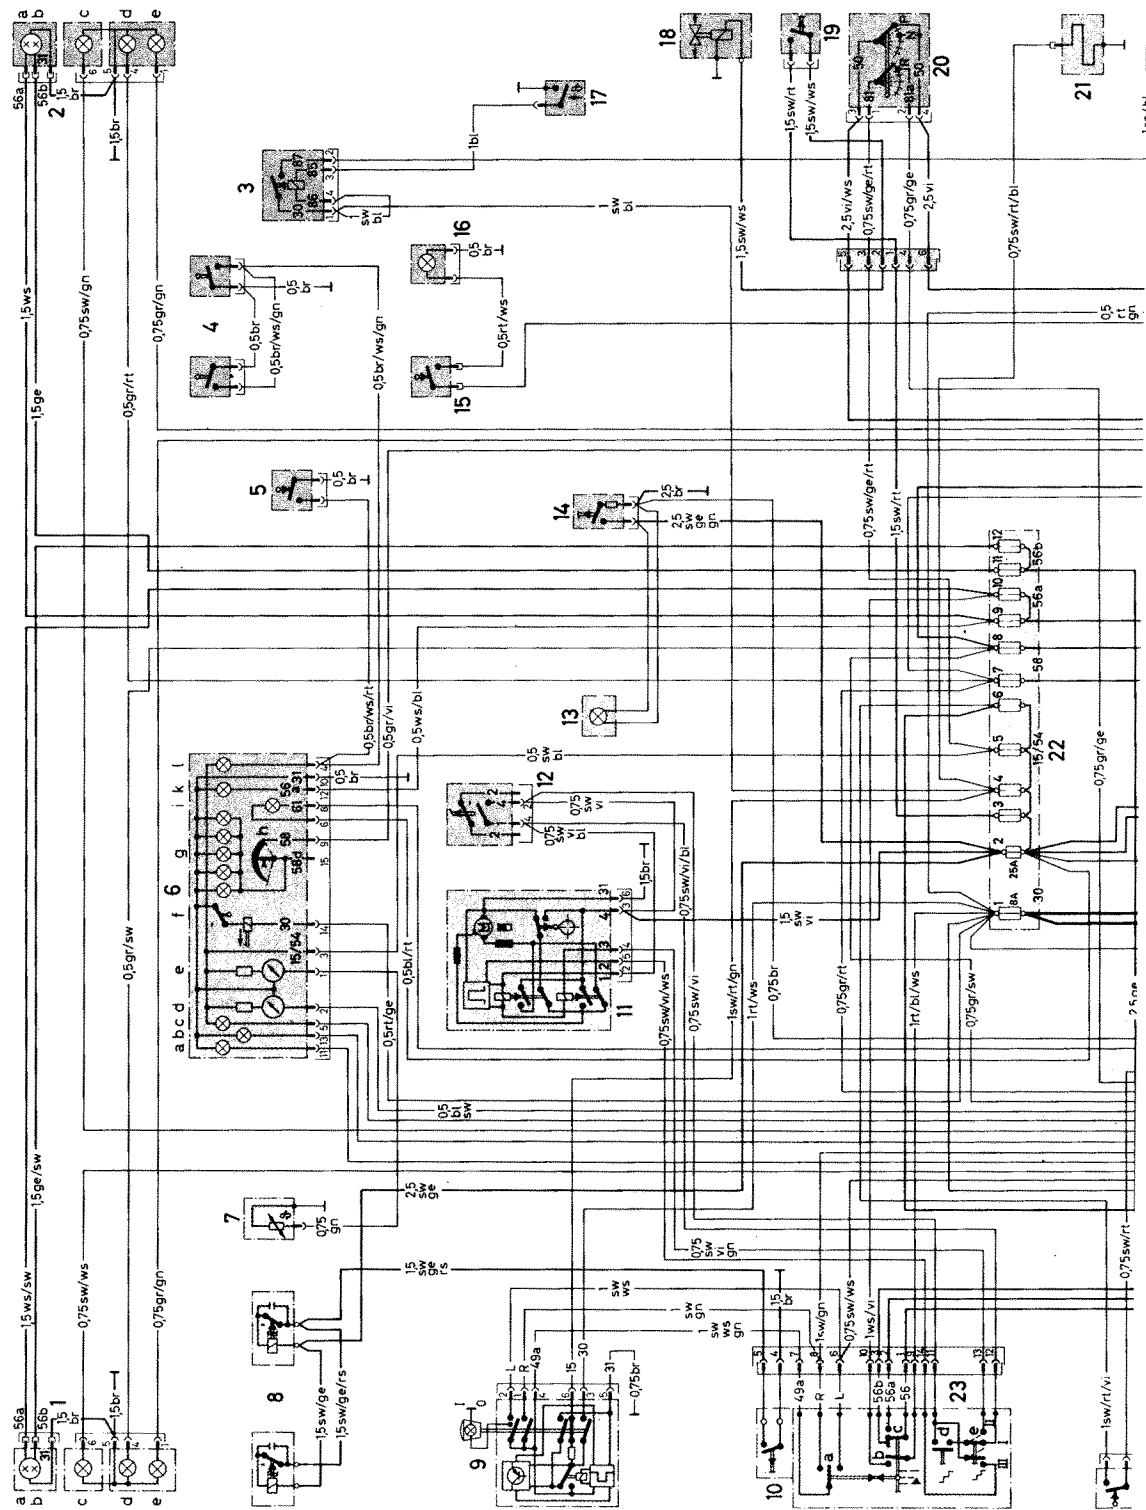

Example:

Wire designation 1. 5 gr/rt

Basic color gr = grey

Identification color rt = red

Cross section of wire 1. 5 = 1. 5 mm²

Supplement 8. Extension May 1974. Service Manual Passenger Cars starting 1968
 Series 114-115
