The GerryVZ versus Ron500SE keyboard Warriors

I was glancing over at the Peachparts forum for some info and low and behold to my amazement i stumbled across an 18 page thread that went sour about 2 pages in when these two guys took over!!!!
It is worst case of pure "verbal diarrhea" that i have had the unfortunate experience to read in a long time.
In fact i don't know how i managed to get to page 18 without bailing out.

I was starting to wonder if they are in fact the same person posting under two different names??? - A case of a "split personality"

Is this person (or them) totally insane as he/they have definitely lost the plot big time and i feel sorry for the Peachparts forum members for having to put up with reading such a furious barrage of pure vindictive hatred posting that words

cannot possibly describe until you read it for yourself in disbelief

What a sad couple (or individual) that resorts to keyboard warrior abuse on a public forum. They/he definitely needs psychiatric help!!!

Why do you care? And more importantly, why did you bother reading 18 pages of that? (and then post about it)

There's a reason I'm posting here now and less over there...
